

Wedding Photography Packages

The below packages can be used as a starting point for creating your ideal wedding photography package.

Start with an images on disc package and then add any extras such as albums, online gallery, canvas prints etc if you require.

Alternatively, get the images on disc now and come back and see us after your wedding to have your album personally designed along with any other extras.

If you'd like any guidance on which package to choose, please do not hesitate to call either [Terri](#) or [Jodie](#) anytime or send us an [email](#) - we are always available to answer your questions.
